

You CAN'T stop the generation of waste but you CAN dramatically reduce the volume...

YOUR MULTI PURPOSE MARINE BALER

WORKING WITH US

As a versatile waste-reduction machinery supplier, we specialize in designing and manufacturing balers and shredders which are widely applied in industries and fields demanding recycling waste materials such as plastic, paper, cardboard, textiles etc.

PRODUCT RANGE

Our product range consists of numerous types of vertical and horizontal balers, all recognized for their superior quality, high durability as well as ease of operation and maintenance.

BUSINESS

You will find that doing business with us is easy and straight forward, you will receive a product of excellent value that will fully satisfy your needs as a MARSAL client, be it land or marine based. Tried and tested machines manufactured to meet your requirements, all supplied with the European CE Certificate, Works Certificate of Compliance to IMO/MARPOL Guidelines specified in Res. MEPC.197(62) Annex V and a 12 month guarantee.

MARSAL Waste Management Ltd has developed a range of Marine Balers/Compactors specifically designed for use on board commercial sea going vessels of all types.

Our range of 12 Marine Compactors allows freedom of choice for discerning ship owners / operators that are conscious of their waste disposal activities and the need for recycling that is becoming an ever increasing matter for consideration.

We offer a Standard unit as well as Water, Explosion Proof & combined WP/EX models throughout the range. The Marine Series is specifically designed to ensure ease of installation and operation.

Dimensions are kept to a minimum and with a depth of 660mm our units do not require any 'hot work' in way of doorways for internal installations.

Our Marine Balers are able to compact most, if not all soft waste materials generated on board, such as;

- Paper
- Cardboard
- Plastic Bottles and Drums (up to 25Ltr) *
- Packaging Materials
- Tin/Aluminium Cans
- Paint/Oil Drums (up to 25Ltr) *

*20t Machines are able to process 205Ltr Steel & Plastic Drums.

Offering a compaction ratio of up to 12:1 (Plastics) our machines can drastically reduce the storage space required on board as well as the ever increasing waste disposal costs that are being charged during port visits.

This range of Marine Garbage Compactors are made 'Exclusively' by our Partner's 'Sinobaler Machinery Co Ltd' located in the coastal city of Ningbo, China.

PRODUCT RANGE

STANDARD MARINE BALER

SVB2-S-100 - 10 ton compression force
SVB2-S-150 - 15 ton compression force
SVB2-S-200 - 20 ton compression force

WATER PROOF MARINE BALER - IP55

SVB2-S-100-WP - 10 ton compression force
SVB2-S-150-WP - 15 ton compression force
SVB2-S-200-WP - 20 ton compression force

EXPLOSION PROOF MARINE BALER

EX d IIB T4

SVB2-S-100-EX - 10 ton compression force
SVB2-S-150-EX - 15 ton compression force
SVB2-S-200-EX - 20 ton compression force

EXPLOSION AND WATER PROOF MARINE BALER

SVB2-S-100-WP/EX - 10 ton compression force
SVB2-S-150-WP/EX - 15 ton compression force
SVB2-S-200-WP/EX - 20 ton compression force
